

# Landrum Morning Drop-off Procedure

In an effort to expedite the morning drop off line, please make note of the following procedures:

1. Pull all the way up to the first administrator  where the red car is located. 
2. Students may exit from cars along sidewalk. All students will enter main entrance.
3. Once all cars between the first and the second administrator have emptied, the second administrator will wave next set of cars to the first.
4. Please wait until administrator signals you to pull forward.
5. Thank you for your cooperation. We believe this will expedite the morning drop off.
